Interim Tidal Support of Silent Angel M1/M1T

Before you begin:

- 1. Make sure your M1 or M1T is connected to power and internet.
- 2. A desktop, and an Android or iOS based device (Cellphone or Pad) connected to the same local area network (i.e., the same router of your home or office) as your M1 or M1T.
- 3. Make sure your M1 or M1T is powered on.

Step-by-Step Guide

There are three options for your convenience, i.e., using Android-based phone, iPhone, or Roon Server.

Option 1: Install BubbleUPnP on your Android-based cellphone

1.1. Download and install the BubbleUPnP App from Google Play or your favorite application store, it may look like this:

1.2. In the VitOS Orbiter App, make sure the DLNA Renderer service is enabled:

1.3 Open the BubbleUPnP App, click on"Now Playing" option on the bottom, select your Silent Angel device.

1.4 Now click on the "Library" option on the bottom, select "Local and Cloud" on the drop-down menu on the top.

1.5 On"Local and Cloud"window, select"TIDAL", then enter your Tidal account information to log in.

1.6 After successful login, on the "Local and Cloud" window, click on "TIDAL", to enjoy Tidal service.

2.2. Make sure VitOS Orbiter App has DLNA Renderer enabled.

2.3. Open the Mconnect Player Lite App, Click on"Play to", then find your M1 或 M1T device.

2.4. Click on "Browser" at the bottom, find and select "TIDAL". Then enter your Tidal account information to login.

2.5. After successful login, you can enjoy Tidal service.

Option 3: Play music on Tidal using your desktop with Roon Server

3.1 Install Roon Server by downloading from the following link below: <u>https://roonlabs.com/downloads</u>

3.2 Register with Roon and get a 60-day free trial coupon from Silent Angel. Enter the redemption code where appropriate.

Roon Registration: https://roonlabs.com/create?from=checkout Coupon Redemption: https://roonlabs.com/coupon

Claiming your coupon:

1. If the package of your device includes a free-trial coupon, you can see the redemption code after scratching off the cover-up area of the coupon.

2. Otherwise send an email to: <u>support@silentangel.com</u>, tell us the device model and serial number of your device, as well as where you bought it. We will send you a code via email.
